GUIDED XR TOUR

Onboarding via QR code (the code can be scanned from OOH, physical invitations or directly from the exhibitors)

The **GUIDED XR TOUR** dynamically adapts the course to the user's onboarding point and inputs (market research questions, interests, etc.).

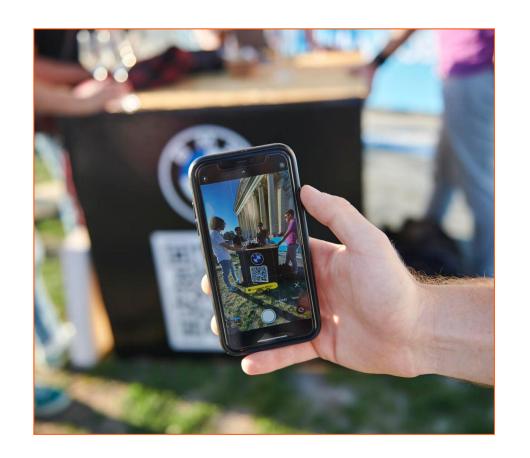

The experience is further enhanced by unlocking AR elements at certain checkpoints of the **GUIDED XR TOUR**.

Participation in the **GUIDED XR TOUR** also enables special experiences, for example the **MIXED REALITY AREA at Königsplatz**.

The goal of the **GUIDED XR TOUR** is to optimize the IAA MOBILITY experience for both visitors and exhibitors.
